List of ingredients identified for having the potential of forming nitrosamines in nitrosating systems according to IFRA Standards:

Declaration of substances is not required

In general terms, the concentration of substances is indicated at 10 ppm (w/w) or more, except in the case of substances assigned an asterisk (*) which, due to their relevance in the legislative field, will be shown at 1 ppm (w/w) or more.

For products with oral and lip exposure, please, ask us.

Use in other product types or at higher concentrations should be the subject of a separate safety evaluation by us.

It is the ultimate responsibility of our customer to ensure the safety of the final product (containing this fragrance) by further testing if need be.
